

A WORKING BIBLIOGRAPHY OF DAVID DRAKE'S WRITING

BY KAREN ZIMMERMAN

David Drake sold his first story in 1966 and continues to write novels, short fiction, essays and other miscellaneous pieces. Although he is sometimes referred to as the “King of Military Science Fiction,” his fiction spans multiple genres. He claims to have written just about every subgenre except SF romance. This bibliography is the beginning of a complete listing of his work. However, this list does not include foreign imprints or electronic versions of his work, such as those available through the Baen Free Library or Webscriptions. Also omitted are other formats such as *The Drake Disk*, a CD-ROM collection of his work produced by Baen Publishing Enterprises in 2003. See the Baen web site (<http://www.baen.com>) for listings of electronic versions available.

Different printings of books are listed only when the ISBN or price has changed. The list is divided into four sections: A) books (novels and collections of stories) written by David Drake, including titles for which he wrote the plot outlines, listed at the end of the section; B) books edited by David Drake; C) his short fiction published in magazines and anthologies; and D) miscellaneous writings such as essays, comments, book introductions and odd pieces that don't fit elsewhere. This list does not include introductions to individual stories.

This list will be updated at David's official web site: <http://david-drake.com>. His web site also contains other pieces of his writing unavailable elsewhere, including his translations of Ovid, not included in this bibliography.
